

Help us make a Difference to Meningitis across Asia at ASVAC

Invitation - Board Room Discussion in Myanmar

Discussing, in back-to-back 90 minute sessions:

- 'Meningitis 2030': the global WHO Initiative
- 'Meningitis Progress Tracker' – what's going on worldwide
- The Gaps, the Barriers, and Opportunities across Asia

We welcome all to participate and contribute in our ASVAC 2019 pre-conference Board Room discussion. This meeting is an opportunity for people to engage with a global WHO initiative and to be a part of a large coordinated effort to defeat meningitis. As medical professionals and leaders in your community, your perspectives and opinions are essential to identify the gaps and barriers in these meningitis-focused projects, assisting us in our role as contributors.

Moreover, we are interested in discussing how we can unite with you to promote health and identify the opportunities to make a difference for those affected by meningitis in your country across our vast region.

To attend your preferred session, reserve a seat by clicking on the button below:
