IMMUNIZATION:
SUSTAINING HEALTH SECURITY IN ASIA

THE 7TH ASIAN VACCINE CONFERENCE
SEPTEMBER 13-15, 2019
YANGON, MYANMAR
www.asvac2019.com
GLOBAL IMMUNIZATION ROADMAP HAS IMPROVED

Today, more and more children are being reached with immunization in the world. Although the results seem impressive, still an average of 1.5 million deaths are faced globally each year as low-income countries battle with immunization coverage and accessibility. Through UNICEF, World Health Organization and different government agencies concerted effort to prevent infectious diseases, programs have been implemented in countries to have accessibility to safer and more secured vaccines. Programs to modify purchasing costs of vaccines is seen to have positive results. Prices of vaccines have since lowered down from USD 24.5 per child in 2013 to USD 18 per child in 2017¹.

ASIA’S GROWING POPULATION

The Asian Region is home to more than half of the world’s population of whom 36% are approximately under the age of 18. The region is seen with disparate groups, high birth rates and huge ratio of unimmunized children. It is crucial to intensify efforts on national immunization programs in the region particularly on lower-income economies where immunization coverage are less priorities.

FACTS

2 (Source: https://data.unicef.org/topic/child-health/immunization/)
3 (Source: http://www.who.int/news-room/fact-sheets/detail/immunization-coverage)

About **123 million children were immunized globally in 2017** but millions are still not reached by potentially life-saving vaccines.²
WHY ATTEND ASVAC 2019?

Asian Vaccine Conference (ASVAC) 2019 is one of the region’s leading scientific platform on clinical information and developments on immunization. It brings together various stakeholders in the field of vaccination to address challenges relevant to clinical practice and immunization coverage in the region. The event fosters collaboration among governments, public health professionals, medical practitioners and institutions in implementing an extensive and actionable immunization coverage in the region.

COLLABORATION
- Partnerships and collaboration to assert programs on disease prevention.
- Deepen vaccine education and awareness in the region.
- Support programs to address vaccine hesitancy and restore vaccine confidence in the region.

ACCESSIBILITY
- Vaccination as a priority on public healthcare programs.
- Availability of vaccines in remote areas in the Asian region.
- Intensify action plans to widen vaccination coverage.

SUSTAINABILITY
- Complete eradication of diseases through vaccination.

Immunization is the most economical public health intervention today but the uptake of these disease-preventing vaccines are still underutilized in some parts of the Asian region. ASVAC has been an excellent platform for the vaccine community to learn the latest developments on vaccination and for being a catalyst in the prioritization of immunization programs in the region.

- Mr. Kim Sampson, Executive Director, Asia Pacific Alliance for the Control of Influenza (APACI)
WHAT TO SEE AT THE EVENT

• **Asian Inter-regional EPI Managers Meeting**
  Hosted by the Ministry of Health and Sports Myanmar, the closed-door meeting aims to strengthen the cooperation and collaboration of EPI Managers and vaccine practitioners in the implementation of wider immunization programs in the region.

• **Clinical Vaccinology Workshops and Masterclass**
  The workshops and masterclass focus on the latest developments and challenges related to the use of vaccines. Expect a more structured platform that could facilitate exchanges and dissemination of vaccine education in a multi-disciplinary approach.

• **Scientific Conference**
  A comprehensive scientific program which covers an entire spectrum of clinical practices, developments and execution of immunization coverage in Asia by well-renowned faculty and experts on vaccinology.

• **Networking and social functions**
  Foster camaraderie among vaccine advocates in the region with planned networking and social functions at the event.

"The event’s scientific program, distinguished faculty and attendance of public health practitioners has made this event one of the most important scientific conferences and meetings in the region focusing on immunization. We are very pleased to be part of this event and we continue to support its advocacy."

- Mr. Bruce Langoulant, Asia Pacific Regional Leader, Confederation of Meningitis Federation (CoMO)
WHO ATTENDED ASVAC 2017?

DELEGATES BY PROFESSION

- 92% are Pediatricians/Physicians/Public health officers
- 6% come from other healthcare workers/students/trainees
- 2% Others

DELEGATES BY COUNTRY

- TOP 3 COUNTRIES WERE FROM SINGAPORE, PHILIPPINES AND THAILAND

INTERNATIONAL VS LOCAL DELEGATES

- 79% international delegates
- 21% local delegates

FACTS ON ASVAC 2017

- 371 medical professionals and end users
- 55 abstracts
- 37 well-known faculty & speakers
- 27 countries

- WELL ATTENDED BY THE RIGHT DECISION MAKERS AND END USERS
- TOP 3 COUNTRIES WERE FROM SINGAPORE, PHILIPPINES AND THAILAND
- TRULY AN INTERNATIONAL PLATFORM
**SCIENTIFIC PROGRAM**

**DAY 1: 14 September 2019, Saturday**

<tbody>
<tr>
<td>07:30 – 08:30</td>
<td>Breakfast Industry Symposium ~ Silver Sponsor</td>
</tr>
</tbody>
</table>
| 08:30 – 10:00 | Symposium 4  
Theme: **Enteric vaccines**  
TITLE 1: Norovirus  
TITLE 2: Typhoid  
TITLE 3: Shigella  
TITLE 4: Rotavirus  
Partners  
*ROTA Council* |
| 10:00 – 10:30 | Coffee Break  
Poster and Exhibition Viewing                                      |
| 10:30 – 11:00 | Plenary Lecture 4  
TITLE: **Vaccine hesitancy**                                        |
| 11:00 – 12:30 | Symposium 5  
Theme: **Hesitancy, AEFIs and advocacy**  
TITLE 1: Why do parents become hesitant?  
TITLE 2: Importance of identifying, reporting, monitoring & interpreting AEFI  
TITLE 3: COMO: Finding Friends in Asia  
Speaker:  
Mr Bruce Langoulant, Asia Pacific Regional Leader  
Confederation of Meningitis Federation (CoMO)  
TITLE 4: Advocacy in Asia  
Partners  
*Confederation of Meningitis Organizations (COMO)  
*International Vaccine Access Center (IVAC)* |
| 12:30 – 14:00 | Lunch Industry Symposium ~ Gold Sponsor                               |
| 14:00 – 14:30 | Plenary Lecture 5  
TITLE: **Hepatitis vaccines (A to E)**                               |
| 14:30 – 15:45 | Symposium 6  
Theme: **Neuro vaccines**  
TITLE 1: Japanese Encephalitis  
TITLE 2: EV71  
TITLE 3: What next for TB vaccines  
TITLE 4: Rabies vaccine guidelines  
Partners |
| 15:45 – 16:00 | Coffee Break  
Poster and Exhibition Viewing                                      |
| 16:00 – 17:00 | Symposium 7  
Theme: **Meet The Experts Panel Discussion**                           |
|               | Partners  
*Philippine Foundation for Vaccines (PFV)  
*Pediatric Infectious Disease Society of the Philippines (PIDSP)* |
| 17:00 – 17:30 | Plenary Lecture 6  
TITLE: **Future trends**  
Speaker:  
Dr Jerome Kim, Director General  
International Vaccine Institute |
| 17:30 – 18:00 | Closing Ceremony  
Handover Ceremony to the next Organizing Chair                        |

*Subject to changes*
